PRIZES/ODDS:

Each of the following categories: DX Libraries, CLI Tools, Dashboards/UI, and Integrations, has a total prize pool of **up to \$3,000 USD equivalent in ADA cryptocurrency**, to be distributed at Sponsor's discretion among up to three top-ranked submissions per category. The NFT Design category has a total prize pool of **up to \$500 USD equivalent in ADA**.

Sponsor retains sole discretion to determine the number of prizes awarded in each category and the value of each prize, including but not limited to the right to award fewer than three prizes per category or no prizes at all, if in Sponsor's opinion, there are insufficient entries or if the quality of submissions does not merit award.

The actual amount of ADA awarded will be calculated based on its USD market value on the date the prize is issued.

Total approximate prize value across all categories: **up to \$12,500 USD equivalent in ADA**.

The actual odds of winning depend on the number and quality of eligible entries received.

This total value represents Sponsor's good faith determination of the actual fair market value and, as ultimately determined by Sponsor, is final and binding and cannot be challenged or appealed. If a stated value is more than the actual fair market value, the difference will not be awarded in cash or otherwise.

Actual odds of winning depend on the number of entries received by the Submission Deadline.

Subject to winners completing all required verification requirements described above by July 25th, 2025, Sponsor will issue the prize to a Cardano-compatible wallet designated by the winner(s). If a winner does not successfully complete the above requirements by July 25th, 2025, then the applicable prize will be forfeited.
